

Phase II - 1st Team Meeting |MINUTES

Meeting date | time 10/1/2014 5:00 PM | Meeting location IC Lab

Type of meeting	Planning Meeting	Attendees
Note taker	Miranda	Amna, Chandni, Dickson, Miranda

AGENDA TOPICS

Agenda topic : Review User Stroies

Discussion :

- Reestimate Value and Cost of all the user stories.
- Merge/split some stories to make them more suitable for our phases and easier to write the test.

Conclusion :

- Those make the priorities of the user stories more fair and reasonable, so that we can have a clearer mind about how to plan the release for rest phases.
- Will update the user stories to GIT after the rewriting finshed completely.

Agenda topic: Expectation of the application

Discussion : Web Application or Software Application?

Conclusion : Will do more research and ask help from Paco, and will discuss about this later.

Special notes

Amna: add the missed Persona about Librarian Programmer and improve the existing 3 ones.

Chandni: generate a text file which contains all the material we need (user stories, personas, system design ...) .

Dickson: rewritte the user stories based on today's changes, and combine olr&new visualization user stories.

Miranda: finish meeting minute; do more reaserch about Web App and Software App, and email Paco for advice.

Nick: start to think about how we build the app. (framework, database ...)

Next Meeting: Oct. 3rd , Fri. after lecture.
