

Phase II – 4th Team Meeting | MINUTES

Meeting date | time [10/10/2014 15:30] | Meeting location IC Lab

Type of meeting Progress Meeting

Note taker Miranda

Attendees

Dickson, Chandni, Miranda, Nick

AGENDA TOPICS

Agenda topic: Last meeting feedback

Conclusion :

CRC: almost done, will adjust functionalities for Database, and will add more during the project implementation

Web Analyzing: will request “Requests” for grabbing html and analyze root domain.

Agenda topic : Project Implementing Progress

Discussio : Difficulties for finished part

Conclusion:

- UI doesn't support python 3.2, but others: continue use it.
- Will not deal with grabbing the links in article for further reference search, just show all the links in this phase.
- Database may need lots of test to do, everyone should help with, if it is possible.
- Need to unify the classes design in CRC, Database & other object classes.
- Setup google doc for report.

Special Notes:

- Need to build branches for different tasks.
- Go through Git tutorial , try to use it carefully.
- Next week will be reading, hardly get everyone together to meet, will use other ways to keep in touch
- Too much due for everyone in this week, will step on it from now on. Cheers up
